Components Cost for FAB Project.

Sr. No.	Component	Usage	Cost in Rupee	Reference Link
1.	ESP32 CAM WiFi Module Bluetooth with OV3660 Camera Module 2MP For Face Recognization	Microcontroller for processing	759.00	ESP32-S3
2.	RC522 RFID Card Reader Module	Accessing, Reading and operating on the RFID tags.	93.00	RFID-Reader
3.	13.56MHz RFID IC Key Tags Pack of 2	RFID Tags for authenticity	37.00	RFID-Tags
4.	13.56MHz RFID Cards Pack of 5	RFID Tags for Police Officers Authenticity.	51.00	RFID-Cards
5.	DS3231 RTC Module Precise Real Time Clock I2C AT24C32	For clocks and real time.	125.00	RTC-Module
6.	LCD1602 16x2 16 PIN Display - Yellow Backlight screen	Display for showing logs and other data	179.00	Display
7.	5V Active Electromagnetic Buzzer	For alerts	16.00	Buzzer
8.	Servo Motor KS 9GMS SG90 9g 180 Degree 6 Hole Radial Arm	For locking and unlocking	119.00	Servo-Motor
9.	MB102 830 Points Solderless Prototype PCB Breadboard High Quality	Connections	61.00	Breadboard

10.	Male to Female Jumper Wires 40Pcs 20cm	Connecting Wires	44.00	M2F
11.	Male to Male Jumper Wires 40Pcs 20cm	Connecting Wires	46.00	M2M
12.	Resistors + LEDs	For Safety and logging	40.00	

Total : 1570/-

This does not include the prototype material (Cardboard / Wood prototype,Slide bolt Latches and other miscellaneous expenses.)
